

KATZ COFFEE MEANS QUALITY & SERVICE

Our work ethic, our morale, and our business perspective are heavily influenced by the folk-tale of the Jumping Mouse. This mouse sacrifices the vision and way of life with which he was comfortable and familiar in order to become something greater.

Katz Coffee employees are encouraged to find creative solutions, make independent decisions, and become someone greater. We learn and grow with one another and, as a result, our company has continued to grow over the years.

Our commitment starts with our farmers: our friends in Colombia, Guatemala, Brazil, Costa Rica, Ethiopia, Peru, and the many other countries from which we source our beans. Each of our sources prioritizes environmental and qualitative responsibilities. We make every effort to buy directly from the farmers and cooperatives in order to not allow our beans to pass through a third set of hands. Since 2003, we have used these beans to create proprietary blends for Houston's and now Texas' most highly-acclaimed and discriminating chefs and restaurateurs to whom we offer education, menu consulting, equipment sales, service, and training. Our team can also assess your equipment needs, based on your projected growth as well as assist you with the right equipment choices and the most efficient equipment layout and installation. We are your turnkey coffee solution.

CAUSE COFFEE COMMUNITY PARTNERSHIPS

Giving back to our communities is one of our core values. As part of our Cause Coffee program, we develop community partnerships with nonprofit organizations closely aligned with our values and mission.

Katz identifies with many organizations whose focus is to support and preserve our natural resources and wildlife habitats. Among these are Houston's own Buffalo Bayou Partnership, Bat conservation International, Friends of Enchanted Rock, Houston Fire Department and University of Houston.

Every time you buy one of our Cause Coffee at Central Market, HEB, Whole Foods, through Katzcoffee.com, or through your wholesale account, we roast it, package it and donate a percentage as unrestricted funds to the benefiting organization.

GROWING WITH OUR COMMUNITIES IS A CORE VALUE AT KATZ COFFEE.

ORIGINAL COLD BREW IN A BOTTLE

Our cold brew is unlike anything you will find on the shelves. We use a patented cold brew extraction process that yields an incredibly smooth and flavorful product. Our coffee is brewed using filtered water with the precise mineral content to compliment the coffee and the brewing process.

Our recipe uses a higher percentage of coffee to water than the other products on the market. This yields more flavor into the final product. This is why the taste profile is richer, and more complex than the competition.

We stand behind the quality of our product. Our Quality Control team tastes the product during each step of the process from the initial choice of the green beans, to the roasting of the beans, and is active on the bottling line ensuring quality from start to finish.

Ready-To-Drink Katz Cold Brew

12/16oz bottles per case

RTD Bottles can be chilled and enjoyed straight from the bottle or poured over ice.

Cold Brew Concentrate

10/32oz bottles per case

Concentrate bottles can be diluted with water or a milk of your choice.

We suggest dilution with water at a 1:1 ratio but you can adjust to your preference.
